## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed November 4, 2008 have been fully considered but they are not persuasive.

#### **Applicant's Arguments:**

Regarding claims 1-6 and 11-19, page 9, the applicant argues that Sudo does not teach or suggest the claimed subject matter of "allocating coded signals corresponding to the same bit of the spreading codes to a respective one of a plurality of transmission channels".

#### **Examiner's Response:**

Regarding the argument set forth above, the examiner disagrees with the applicant because Sudo clearly teaches allocating coded signals corresponding to the same bit of the spreading codes to a respective one of a plurality of transmission channels (col. 1, lines 57-64).
